Kevin,

Can you send me a copy of the request form? I need to check the VOA method used.

Thanks,

Sue

LAB BRANCH,

Skip is going to complete his annual drinking sampling here at the Environmental Science Center for the following parameters:

Total and Fecal Coliforms

Heterotrophic Plate Count

Total Lead and Copper

Total Metals

Total Mercury

Trace VOA's

Due to the upcoming audit next week, and the extra input from a lot of us for the WV chemical spill, I'm putting this date out and if everyone is good with it we can sample.

First Week of April. That's 3/31 – 4/4. IF I DON'T HEAR FROM YOU I WILL ASSUME THIS DATE IS GOOD AND SAMPLING WILL OCCUR.

Skip, please let us know who is doing the sampling as the listed Jerry Crutchley on the Analytical Request Form is retiring.

Thanks, KevinP
